## THIN CLIENT RANGE

Thinspace provides a reliable, ecological & cost effective hardware option for your server based computing needs.

The Thinspace TST700 is a thin client notebook that delivers two key advantages, mobility and security. The TST700 allows mobile workers to optimise their productivity whether they are in or out of the office without compromising on security. The TST700 uses a 1GB compact flash hard drive, so all applications and data are held on the central server and not the notebook. So if the notebook is lost or stolen no sensitive data or information is compromised as it is held securely on a central server.

The TST700 comes equipped with many advantages of the traditional notebook so mobile working is straightforward. It has the usual network connections Ethernet and 802.11 b/g wi-fi as well as a multitude of USB 2.0 ports, so it's easy to connect external peripherals such as printers and USB pen drives. There are also options for an internal smart card reader for added security & Bluetooth. The TST700 also supports the use of 3G data cards, so you can even have broadband on the move.

The TST700 is the solution for the modern day IT conundrum of being able to increase mobility whilst also increasing security. So whether your users work in the office, at home or on the move, you can be rest assured that your data is secure.

## Remote Management Software

One of the most important features of using thin clients is the ability to manage them effectively. All thin clients from Thinspace can be managed, whether it's a simple configuration to a full machine back up, our management software will allow administrators to manage their enterprise effectively and easily.

## Features & Benefits

Low Powered

No Moving Parts

Stylish & Functional

PC Quality Graphics

Can be managed over LAN/WAN

## Technical Specifications

		XP Embedded SP2		
System				
	Processor	Via C7-M ULV 1.2 GHz		
	Chipset			
	Memory	512 MB DDR2 @667MHZ (up to 1 GB)		
	CF	1 GB (up to 4 GB)		
I/O Peripheral				
		1 x VGA (DB 15)		
		1 x RJ-45 10/100		
		3 x USB 2.0 Ports		
		Kensington Lock Slot		
		DC Power Jack		
		1 x Line-out		
		1 x Mic-in		
	Point Device	Touch Pad 2 Button L/R		
Networking				
	Ethernet	10/100 RJ-45		
	Wireless	Int. 802.11 b/g		
Display				
	Interface	1 x VGA (DB 15)		
	Max Res.	12.1 W XGA 1280 x 800		
Communications		RDP 6.0, Citrix ICA 10.150, IE 7, Provision VAS 14.0.0.162		
Additional Software		Windows Media player 11, Web PN Agent, Adobe Acrobat reader, Flash ver. 9.0.115, Shockwave Player ver. 10.3 Java ver. 1.4.2_16,		
Environmental				
	Power	AC 100 – 240 V		
	Operating Temp	0-40° C (21-104° F)		
Dimensions				
	Height	31 mm		
	Depth	210 mm		
	Width	297 mm		
Weight		1.6. KG		
Options				
		Smart Card Reader		
		Bluetooth
